Year 10 Parents and Guardians

Students are eligible for free dental care until the end of Year 10. Currently the School Dental Service is offering treatment to Year 10 students at your school. This service will be provided from the Ingham Hospital dental clinic.

All students in Year 10 have received a medical history & dental consent form. We ask parents to please complete these forms and return to your School's office as soon as possible. If you have not received these dental forms home and wish for your child to be seen please collect another copy from the school office. When your child has returned the completed forms they will be collected and we will contact you to arrange an appointment.

If you have any enquires please contact

Ingham Oral Health Services on 4720 3149 or 0407 962 997
