## WHAT IS SUN?

SUN is a CQUniversity initiative that gives you the opportunity to study CQUniversity units while in Years 10, 11 and 12 at high school (Year 10 students are eligible for Term 3 enrolment only). SUN allows you to enrol in a range of CQUniversity units (subjects) either on campus (face-to-face) or online (by distance education), which you can combine with your regular high school work.

## IS SUN FOR YOU?

- » Do you want to get a head start with study and your future career?
- » Do you want to further challenge yourself in your final years of high school?
- » Are you a high achieving student?
- » Are you self-motivated and can manage your own time effectively?

If so, SUN could be for you.

## BENEFIT FROM STARTING UNI NOW

### WHY STUDY SUN?

#### Sneak peek

Not sure whether university is for you? SUN provides you with an insight into university life and helps you understand the expectations of studying at a tertiary level. This will help prepare you for the transition from high school to university.

#### Direct entry

After successful completion of SUN, you may be eligible to apply for direct entry into an undergraduate degree at CQUniversity (excluding quota managed courses). This means you will not need to apply and wait for an offer through a tertiary admissions centre, for example the Queensland Tertiary Admission Centre (QTAC). To be eligible for direct entry, you must:

- » pass at least one SUN unit from the undergraduate degree you are applying for
- » meet all of the prerequisites of the undergraduate degree you are applying for
- » show evidence of Year 12 completion (Queensland Certificate of Education (QCE) or CQUniversity approved equivalent).

You can study SUN units at the same time as your regular high school subjects and if you successfully pass your SUN units you can receive credit towards your Queensland Certificate of Education (QCE).

#### Affordable

As of Term 1, 2018, high school students from across Australia will have the opportunity to undertake their first SUN unit at zero cost (excluding textbooks and resource expenses).

Subsequent SUN units are offered at a reduced price which is less than a third of the cost that a regular university student would pay. As a SUN student you can potentially save thousands of dollars and minimise any future HECS-HELP debt.

#### Credit transfers\*

If you enrol as a CQUniversity student after Year 12, you may be eligible to receive a credit transfer for each SUN unit you have passed. Provided these SUN units are part of your degree at the time of your undergraduate admission, a credit transfer would count towards your degree. This will reduce the number of units you need to study when you start university and may reduce the duration of your university course.

#### Meet tertiary entry requirements<sup>^</sup>

SUN offers a range of units which may assist you in satisfying tertiary entry prerequisites for science and maths related subjects.

#### HOW MUCH DOES SUN COST?

While undertaking your first SUN unit you will not be liable for a unit fee. Subsequent units (up to an additional three units) are offered at a significantly discounted rate of \$375 per unit.

In addition to the unit cost, there may be other expenses such as textbooks and resources. Fees must be paid upfront and cannot be deferred to HECS-HELP, but you may be eligible for financial assistance options.

#### WHERE CAN I STUDY SUN?

SUN units can be studied either on campus or online (by distance education), which means you can choose a way of studying that suits you best, regardless of where you live.

As a SUN student studying either on campus or online, you will require regular access to the internet and a reliable computer.

#### RESIDENTIAL SCHOOLS

Some online units may require compulsory residential school attendance. Residential schools require you to attend a designated campus for up to five days to undertake practical components of your study. To find out details of residential school attendance, visit [www.cqu.edu.au/residentialschools](http://www.cqu.edu.au/residentialschools).

\*Credit transfers toward courses at other Universities should be discussed with the relevant university.

<sup>^</sup>Students intending to utilise SUN units in order to meet tertiary pre-requisites should discuss this with the SUN Team and/or the relevant university prior to enrolment.

## WHAT LEVEL OF COMMITMENT IS INVOLVED?

It is recommended that you dedicate between 10–12 hours of study to each of your enrolled units per week (over a 12–14 week period). Studying SUN units requires good time management skills, the ability to work independently and a proactive attitude. University study is very flexible and this allows you to work your study time around other commitments such as a part-time job or sport.

You can study your SUN unit/s after school and on weekends. You may also choose to study a SUN unit as your sixth subject choice at school. You should speak with your school guidance officer or principal to discuss the best way for you to manage your study commitments.

## WHAT SUPPORT DO I RECEIVE AS A SUN STUDENT?

Regardless of whether you study on campus or online, you have access to many of the same resources and support services as other CQUniversity students.

### SUN Project Officer

A dedicated staff member who will assist you throughout your SUN study journey.

### Academic Learning Centre (ALC)

The ALC is a 'one-stop-shop' for information, advice and resources related to academic writing, mathematics, science and computing requirements of study at CQUniversity.

### Student Life and Wellbeing Centre

This Centre provides you with both academic and personal counselling, as well as assistance with time management and study skills. If you have a disability or medical condition, you are encouraged to register with the Inclusion and Accessibility Service to review your support needs.

### Campus Support

Students located close to a CQUniversity location are also able to access facilities such as campus libraries and computer labs.

## AM I ELIGIBLE TO APPLY FOR SUN?

To be eligible to apply for SUN you must be:

- » an Australian or New Zealand citizen, permanent resident of Australia or the holder of a Permanent Humanitarian Visa
- » enrolled in Year 11 or 12 (Year 10 students are eligible for Term 3 enrolment only)
- » achieving an average 'B' grade (or better) across all school subjects (as per your most recent report card).

You will also require permission from your principal or school nominee and a parent or guardian.

## HOW TO APPLY

To apply for entry into SUN visit [www.cqu.edu.au/sun](http://www.cqu.edu.au/sun) and review the *How to Apply* section.

You must submit a copy of your most recent school report card with the SUN application, as well as gain both parental and school approval.

Applications must be received at least two weeks prior to the commencement of the relevant term.

## HOW DO I CHOOSE A SUN UNIT?

Did you know that more than 100 CQUniversity units are available for study as part of SUN?

When selecting the unit you wish to apply for it is important to consider the following questions.

- » What career are you interested in pursuing?
- » What course is required to pursue that career?
- » Does the SUN unit form part of the requirements for that course?
- » Is the unit offered in the term you wish to study?
- » Is the unit available on campus, online (by distance education) or both?\*

\*Online (by distance education) is the most popular mode of study chosen by SUN students for most units as it provides you with the flexibility to fit university study around your current school timetable. If you would like to study on campus, speak with a SUN Officer.

## NADIA LYONS HAS COMPLETED SUN STUDIES TOWARDS A BACHELOR OF NURSING

Start Uni Now allowed me to pursue studying what I'm most passionate about. Through SUN I graduated high school with direct entry and six months of my Bachelor of Nursing completed. SUN was a great experience and provided me with an insight into university life.

# SUN UNIT AVAILABILITY

The tables below show the SUN units available that will help you towards your desired degree.

## BUSINESS, ACCOUNTING AND LAW

Business, accounting and law courses and units have been developed in consultation with, and are regularly reviewed by, industry professionals. This ensures that our qualifications remain up-to-date and meet the latest industry standards and expectations. Our comprehensive and practical study options mean you will graduate work ready and equipped to succeed within your chosen career path.

## ENGINEERING AND BUILT ENVIRONMENT

Engineering and built environment courses allow you to benefit from strong partnerships with industry, providing a practical approach to learning. These courses are tailored to develop confident and capable graduates with the practical skills and theoretical knowledge required by industry.

	TERM OFFERED	T1	T2	T3
<b>Bachelor of Engineering or Bachelor of Engineering Technology</b>				
ENEG11006 - Engineering Statics		✓	✓	
ENEG11009 - Fundamentals of Energy and Electricity		✓		
MATH11160 - Essentials of Applied Mathematics		✓	✓	
<b>Bachelor of Building Design</b>				
BLAR11049 - Built Environment Communication and Skills		✓	✓	
BLAR11050 - Residential Construction		✓	✓	
BLAR11033 - Building Materials 1		✓		
BLAR11045 Built Environment 1		✓		

Please note: Conditions apply in regards to credit for these units towards the Bachelor of Engineering or Bachelor of Engineering Technology.

**ZALI GARIOCH  
IS A BACHELOR  
OF EDUCATION  
(SECONDARY)  
STUDENT WHO  
COMPLETED SUN**

The best thing about distance education is that it didn't feel distant at all, CQUni Staff were always willing to help with anything and everything, which was extremely encouraging as I was still a little nervous about the whole uni thing.

## HEALTH

Health courses and units have been developed to meet the ever increasing needs of our communities both within Australia and internationally. Discover state-of-the-art learning facilities and renowned teaching staff, and benefit from work integrated learning so you graduate work ready.

## IMPORTANT DATES

SUN is offered over three university terms, however, not all units are offered in all terms. University terms generally do not run at the same time as your school terms. In some cases you will be studying during school holidays. Each term is 12 weeks in duration followed by an examination period.

### 2018 TERM DATES

#### TERM 1

Monday, 5 March – Friday, 1 June

#### SUN application due date

Friday, 16 February

#### SUN fee due date\*

Tuesday, 27 March

#### TERM 2

Monday, 9 July – Friday, 5 October

#### SUN application due date

Friday, 22 June

#### SUN fee due date\*

Tuesday, 7 August

#### TERM 3

Monday, 5 November 2018 - Friday, 8 February 2019

#### SUN application due date

Friday, 19 October

#### SUN fee due date\*

Tuesday, 4 December

\*Also known as Census Date. This is the last date to withdraw without financial penalty and also the last day to pay your SUN tuition fee.
